

## **Apple pay Installation Guide**

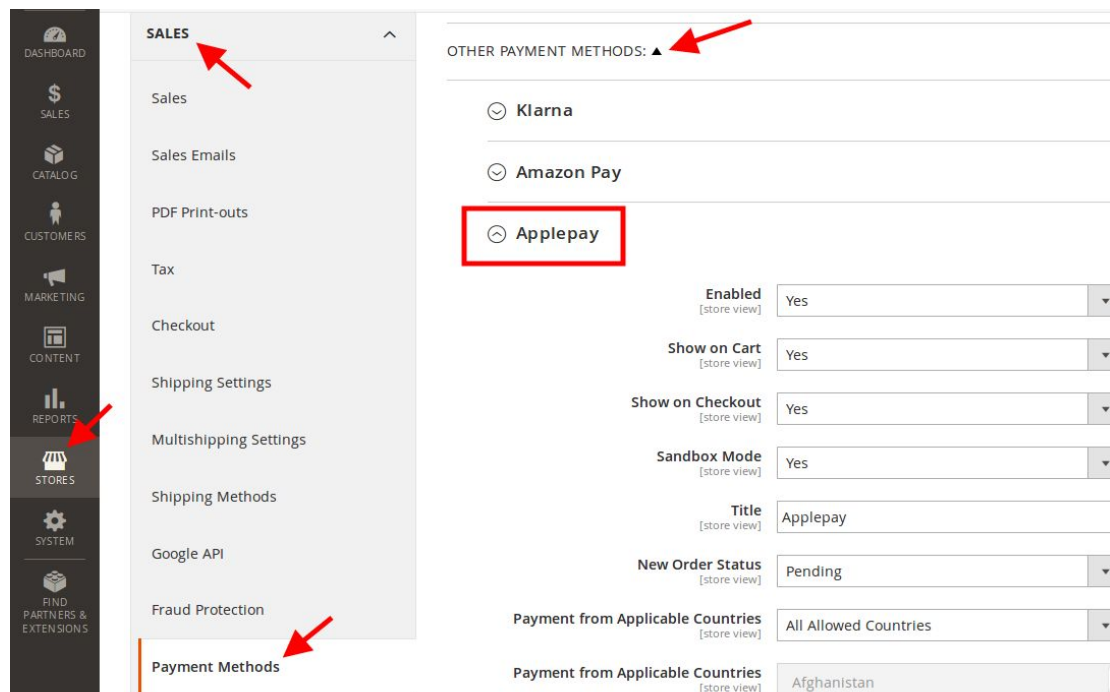

Step 1: Copy paste file in corresponding folder

Name	Size	Type
 Thecommerceshop	181.9 kB	Folder

Step 2: Setup Upgrade by using the following cmd in terminal

php bin/magento setup:upgrade and provide respective permission for the folder

Step 3: Store->Configuration-> Sales tab->Payment Method->ApplePay

The screenshot displays the Magento Admin interface. On the left sidebar, the 'SALES' menu item is highlighted with a red arrow, and the 'Payment Methods' option is also highlighted with a red arrow. The main content area shows the 'OTHER PAYMENT METHODS' section, where the 'Applepay' option is highlighted with a red box. Below this, several configuration options are visible, including 'Enabled', 'Show on Cart', 'Show on Checkout', 'Sandbox Mode', 'Title', 'New Order Status', and 'Payment from Applicable Countries'. A red arrow points to the 'OTHER PAYMENT METHODS' section header.

## **Server Setup**

[https://developer.apple.com/documentation/apple\\_pay\\_on\\_the\\_web/setting\\_up\\_your\\_server](https://developer.apple.com/documentation/apple_pay_on_the_web/setting_up_your_server)

**To create apple credentials:**

[https://developer.apple.com/documentation/passkit/apple\\_pay/setting\\_up\\_apple\\_pay\\_requirements](https://developer.apple.com/documentation/passkit/apple_pay/setting_up_apple_pay_requirements)
